News Appetite Unsatisfied
By Official 'Handout' Diet

WASHTINGTON—Among the hanging in Washington
there is a growing sentiment even now to be a con
scious consumer, to spend his money as a finan
cial force for good. Partly it reflects the trend toward
more and more money spent on food, partly it re
flects the reaction against the patience of in

Religion in Politics

Religion in Politics is not the National Union
inches close, or been talked to by presidential
by the Catholic Church or by the Church of
early last week, the National Union Church
in Washington. It is a coalition of
30,000 Protestant and Orthodox churches,
behind the effort.

The union is planning to organize
thousands of labor leaders and
promote its program in the
coming months. The
churches have expressed
their support for the
union's goals.

Unanswered Questions

The whole story has not been told publicly in
this campaign, and the issues are
complex and controversial. Many
questions remain unanswered,
including those about the
role of money in politics,
the influence of special
interest groups, and the
impact of religious beliefs on policy decisions.

Time to Settle O.C. & Case

The Senate is expected to vote on
the so-called "O.C. & Case" bill,
which would allow individuals
who meet certain
income and employment
requirements to obtain
naturalization. The bill
has been widely debated
in recent weeks, with
opponents arguing that it
would lead to an influx of
immigrants and
supporters contending
it would provide a
pathway to citizenship
for many lawfully present
foreigners.

Senator Soaper Says—

Senator Soaper, a prominent
Democrat, endorsed the bill,
saying it would
provide a
viable
solution
for
many
Americans who seek
citizenship.

and
its
